

Ditch Your  
Old Electronics

Create New  
Opportunities

## Why Recycle with VersAbility?

By cleaning out the old, you can make a difference in our community. With VersAbility Resources' Electronics Recycling program, you bring us your unwanted electronics and our employees with disabilities safely and securely disassemble them.

**Safe Disposal** – Partnerships with R2 Certified recycling vendors ensure environmentally sound best practices

**Data Protection** – Data destroyed according to Department of Defense specifications

**Component Reuse** – Disassembled components are recycled and reused, keeping harmful waste out of local landfills

**Certifications** – RIOS compliant and the only R2 Certified electronics recycling entity serving the public in Southeastern Virginia

WHERE ABILITY MEETS OPPORTUNITY

**Electronics Recycling**

## Keep Electronic Waste from Growing

### VersAbility accepts it all, including:

- Personal and business computers and workstations
- Keyboards, printers and computer accessories
- Cell phones, telephones and fax machines
- Communications and networking equipment
- Consumer electronics
- Monitors and televisions
- Connectors, cables and wiring
- Circuit boards, switches, circuit breakers and other electrical equipment

## Pricing

### Our recycling fees

- 33¢ per pound for computers and other electronics
- \$10 per monitor
- \$25 per television (any size)

### Why are there fees?

VersAbility only works with reputable partners and we incur charges to ensure items are safely recycled in an environmentally-friendly manner. For a minimal fee, you can get rid of unwanted materials and create jobs for people with disabilities.

Interested in recycling items not on the list?
